

Base Image Generation Instructions

Please create a visual composition with the topic: `#{topic}#`

Requirements:

- Use solid color shapes only; no outlines;
- High contrast in black-and-white or a minimal color scheme;
- Composition should be simple yet expressive.

Base Composition Generation Instructions

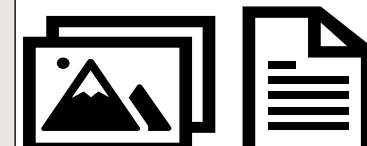

As a best-level visual designer with expertise in positive-negative space composition, please create an short design description based on the following information:

- **Special Concept Defination:** Negative space or negative volume is the empty space around and between the subject(s) of an image.
- **Functions:** Balance the compositions, make the object stand out, add motion and depth to a 2D image, and help design symbolism.

Your task is to design the base composition of positive-negative parts and theirs interactions, based on the **Topic:** `#{topic}#`.

Stage III

Stage I

Stage II

Base Image Analysis Instructions

`#{base_image}#`As a professional visual design analyst, please carefully analyze the given image and generate a detailed content description prompt. The analysis should be structured across the following dimensions:

- Shape Features: Geometric forms, contour characteristics, and boundary definitions of the main visual elements.
- Spatial Relationships: Distribution of positive and negative space, visual center of gravity, and compositional balance.
- Visual Hierarchy: Layering of primary and secondary elements, and the guided visual flow.
- Design Potential: Elements that show potential for positive-negative space interplay and compositional innovation.
- Symbolic Significance: Conceptual, emotional, or symbolic meanings conveyed by the visual elements.
- Technical Features: Contrast, line quality, and clarity of forms. Please use precise and professional design language to provide a solid foundation for subsequent creative synthesis.
- Format requirement: Structured description with one paragraph per dimension.

Fine-gained Composition Generation Instructions

As a master-level visual designer with deep expertise in figure-ground (positive-negative space) composition, please create an innovative and artistically valuable design prompt based on the following information:

- Elemental Analysis: `#{base_image_analysis_results}#`
- Base Composition: `#{base_composition}#`
- Design Example: ``` {example_image_1} \n {Name: Vase or Face. \n Description: A image of minimal colors. It shows a white vase in the center as a silhouette, while the shapes of vase form the black profiles of two people looking towards each other, which as negative space.: example_design_1} `` ... `` {example_image_N} \n {example_design_N} ```

Your task is to generate a detailed and precise final design prompt according to the above.
