# Supplementary Material for Animal3D

Figure 1. Dataset statistics of Animal3D. There are totally 40 ImageNet classes, which are categorized into 5 families.

As shown in Figure 1, Animal3D contains a total of 3379 of images, which are classified according to the official ImageNet labels. We further categorize all animal classes into five "families" (dog, tiger, cow, horse, hippo) that summarize objects with a similar overall shape.
