Supplementary Material for
FeatureNeRF: Learning Generalizable NeRFs by Distilling Pre-trained Vision Foundation Models

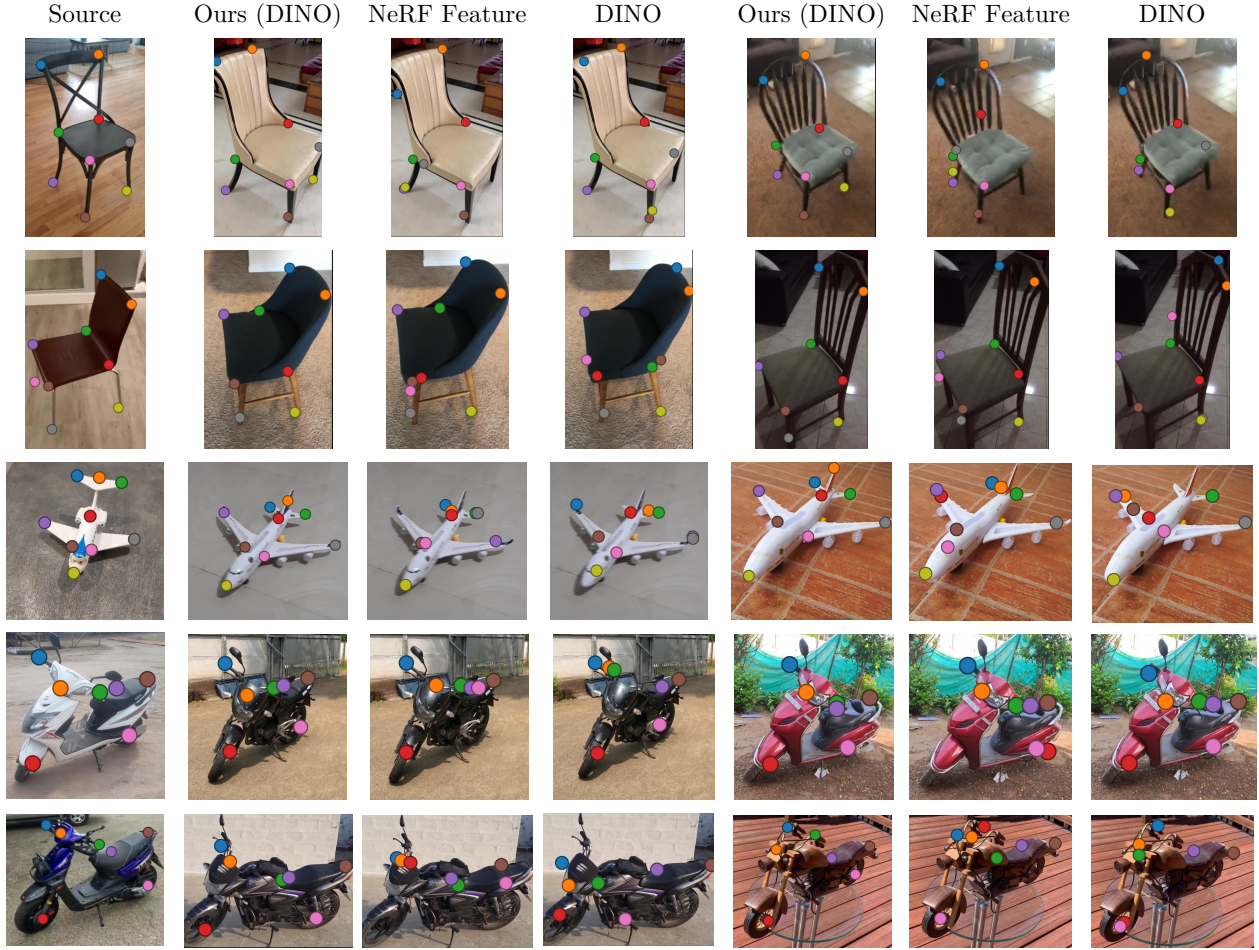

Figure 1: **Keypoints transfer on CO3D**.

In this supplementary material, we present additional qualitative results for CO3D keypoint transfer in Fig 1, cross-instance part co-segmentation in Fig 2 and Fig 3, and cross-instance keypoint transfer in Fig 5 and Fig 4. Please see our **video** for an overview of our work.

Figure 2: **Qualitative results for cross-instance part co-segmentation**.
