

Supplementary Material: Learning Pairwise Interaction for Generalizable DeepFake Detection

Magnified Figures For Fig. 5

(a) Visualization of the last block of the exit flow of MCX-API (RGB).

(b) Visualization of the last block of the API-Net.

Figure 6: A magnified figure for Fig. 5. Visualization of the last layer of MCX-API (RGB) and API networks. We utilize Grad-CAM [42], Grad-CAM++ [12], HiResCAM [20], LayerCAM [27] and XGradCAM [24] as our visualization tool.
